Eagle Rock Entertainment Presents The Rolling Stones Crossfire Hurricane Out On DVD, Blu-ray And Digital Video May 21, 2013

NEW YORK, April 16, 2013 /PRNewswire/ -- Eagle Rock Entertainment has announced details of the release on DVD and Blu-ray of The Rolling Stones' Crossfire Hurricane [Pre-book Order Date April 26, MSRP \$14.98 DVD, \$19.98 Blu-ray]. Available on May 21, 2013, Crossfire Hurricane is the kaleidoscopic new film that documents the key periods of the Rolling Stones' career and their incredible journey.

Directed by Brett Morgen, Crossfire Hurricane provides a remarkable new perspective on the Stones' unparalleled journey from blues-obsessed teenagers in the early 60's to rock royalty. It's all here in panoramic candor, from the Marquee Club to Hyde Park, from Altamont to Exile, from club gigs to stadium extravaganzas.

With never-before-seen footage and fresh insights from the band themselves, the film will delight, shock and amaze longtime devotees, as well as a new generation of fans, with its uniquely immersive style and tone. Crossfire Hurricane places the viewer right on the frontline of the band's most legendary escapades.

As befits the first rock band to reach the 50-year milestone with their global stature now greater than ever, the film combines extensive historical footage, much of it widely unseen, with contemporary commentaries by Mick Jagger, Keith Richards, Charlie Watts, Ronnie Wood and former Stones Bill Wyman and Mick Taylor. Period interviews, extensive live performance material and news archives give the production a truly kinetic aura and no-holds-barred approach.

Bonus features on the DVD and Blu-Ray include previously unreleased concert footage - "Live in Germany '65", NME Poll Winners concert footage from 1964 and 1965, a new interview with director Brett Morgen, "The Sound and Music of Crossfire Hurricane", footage from The Arthur Haynes Show (1964), and the theatrical trailer.

Crossfire Hurricane received its worldwide premiere at the London Film Festival in October, where Mick Jagger, Keith Richards, Charlie Watts and Ronnie Wood all hit the red carpet to the delight of fans and media from all around the world. The film received a similar premiere in the U.S. the following month, hosted by HBO at the Ziegfeld Theatre.

Asked in a formative interview in the film what it is that sets them apart from other groups, Jagger says with quiet understatement: "A chemical reaction seems to have happened." Keith Richards added, "You can't really stop the Rolling Stones, you know when that sort of avalanche is facing you, you just get out of the way." It's been happening ever since, and the life and times of the Rolling Stones have never been as electrifyingly portrayed as they are in Crossfire Hurricane.

Eagle Rock Entertainment is the largest producer and distributor of music programming for DVD, Blu-Ray, TV, Audio and Digital Media in the world. Eagle is a Grammy Award winning company and has received over 30 multi-platinum, over 50 platinum and over 90 gold discs, worldwide.
