### 5 HOT CONCERT DVDS!

#### THE ROLLING STONES

##### Sweet Summer Sun

Almost 44 years to the day that they played a free concert at London's Hyde Park in 1969, the Stones returned last summer with a two-day gig for a new generation. While it's always impressive to see how Mick, Keith, Ronnie and Charlie still move like they're in their 20s, the interspersed footage of the (millennial!) crowd and the commentary by the band on what it means to play on their home turf are as entertaining as the live performances. Mick's falsetto on bonus track "Emotional Rescue" reminds you that the old boy's still got it.
