THE YARDBIRDS CAPTURE 2010-2012 TOURS ON TWO-DVD COLLECTION

Winging towards their 50th anniversary in 2013, **The Yardbirds** will get the celebration rolling early with the December 11 release of *Making Tracks*, a two-DVD concert package which gathers highlights from the group's 2010-2012 tours. The compilation features Yardbirds staples such as "Heart Full of Soul," "The Train Kept A-Rollin'," "Shapes of Things," "Over Under Sideways Down" and "I'm a Man," just to name a few. Drummer and founding member **Jim McCarty** said *Making Tracks* was "great fun to make, and I think it really shows how young and old musicians can work together in a spirit of harmony and energy, giving credence to a great repertoire."
