More entries in the ramp-up to Frank Sinatra's 100th birthday in December—*Sinatra: All of Nothing at All* (Eagle Rock) is a double-DVD/Blu-ray doc chronicling the life and career of Ol' Blue Eyes through archival interviews, home movies and concert footage. *Frank Sinatra: A Voice on Air* (Sony Music Legacy), a 4-CD box set, has more than 100 tracks culled from rare radio broadcasts and rehearsals, all restored to modern, hi-fidelity standards from original master recordings.
